

I feel that the prayers express
how g-d has saved our lives. All
the times he saves us from the
clutches of the people who want
to kill us. G-d all mighty has also
saved ~~the~~ ~~lives~~ others that our in
dangers.

I think that G-d should
do one last amazing thing
for all the Jews and all the people
in the world is: World Peace. Mean
peace between siblings, armies and
rulers.

I feel that G-d has done many things for the world. G-d made life, happiness, peace, thankfulness, and G-d gives us our own choices to make for ourselves. I think that all these things/feelings are wonderful and important everyone. The only thing I don't understand about people is, war, being greedy, and fighting with each other. I think that peace is one of the best things G-d gave us.

The way I feel about what G-d has done for the ^{world} ~~world~~ and for the Jewish people is very thoughtful. This is because he has created us. G-d has given us ^{love} ~~peace~~ because if we didn't have ^{love} ~~peace~~ we would never have a heart that cared about our relatives. G-d has also given us food, and if we didn't have we would starve and maybe ^{would} not even be able to live. Another thing G-d gave us is shelter, if we didn't have shelter or a place to live we would stand outside with no food, drinks, warmth, or anything else. G-d has given us many different things that we need ~~or~~ we would never be able to live.
